

CUSTOM PATTERN GUIDELINES

P CUSTOM PATTERN Designs

When the CUSTOM PATTERN icon is shown with a product (**P**) it means that the design's pattern may be customized at no additional charge: simply choose a pattern from the Custom Pattern Palette, and choose a color from the Custom Color Palette.

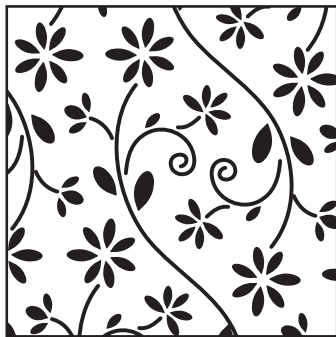

VERSATILITY

This personalization system makes a single design easily adapted to any event, and gives customers the opportunity to add their own personal touch to a product.

COLOR CHOICES

For all patterns, white areas will remain white and the chosen color will be applied only to areas shown in black.

Dainty Floral
